

Parental/Guardian Internet Consent Policy

Upon enrolling at Independence Christian School your child's photo/image might be published on the school's web site and Facebook page.

As you are aware, there are potential dangers associated with the posting of personally identifiable information on a web site since global access to the Internet does not allow us to control who may access such information. These dangers have always existed; however, we as a school do want to celebrate your child and his/her work.

ICS policy is to not associate names with pictures on the internet. If we publish a picture we do not name those people in the picture. If we announce a name of an award winner, we do not publish their picture. We will not release any other personally identifiable information without prior written consent from you as parent or guardian. Personally identifiable information includes student names with photos or images. We will not publish residential addresses, e-mail address, phone numbers and locations and times of class trips.
